

Network Equipment and Telecommunications Asset List

Confidential Due Diligence Document

Nexus Intelligent Systems, Inc.

1. DOCUMENT PURPOSE AND SCOPE

1 This Network Equipment and Telecommunications Asset List ("Asset List") represents a comprehensive inventory of all network infrastructure, telecommunications equipment, and related technological assets owned or leased by Nexus Intelligent Systems, Inc. (the "Company") as of January 22, 2024.

2 The purpose of this document is to provide a detailed accounting of the Company's critical network and telecommunications infrastructure for purposes of potential corporate transaction, merger, acquisition, or financial due diligence.

2. ASSET CLASSIFICATION METHODOLOGY

1 Assets have been categorized according to the following primary classifications:

- a) Network Infrastructure Equipment
- b) Telecommunications Hardware
- c) Network Communication Systems
- d) Connectivity Infrastructure

2 Each asset is documented with the following standard descriptive parameters:

- Asset Identification Number
- Manufacturer
- Model Number
- Purchase Date
- Current Operational Status
- Estimated Replacement Value
- Maintenance and Support Contract Details

3. NETWORK INFRASTRUCTURE INVENTORY

1 Core Network Equipment

1.1 Cisco Catalyst 9500 Series Core Switches (Quantity: 4)

- Purchase Date: September 15, 2022
- Total Replacement Value: \$248,000
- Maintenance Contract: Cisco Smart Net Total Care through September 2025

1.2 Juniper MX204 Universal Routing Platforms (Quantity: 2)

- Purchase Date: November 3, 2021
- Total Replacement Value: \$175,000
- Maintenance Contract: Juniper Enterprise Support through November 2024

2 Wireless Network Infrastructure

2.1 Aruba ClearPass Network Access Control System

- Deployment Date: July 2022
- Licensing: Enterprise Subscription
- Total Value: \$89,500

3 Network Security Appliances

3.1 Palo Alto Networks PA-5260 Next-Generation Firewalls (Quantity: 2)

- Purchase Date: January 2023
- Total Replacement Value: \$156,000
- Active Threat Prevention Subscription: Active through January 2026

4. TELECOMMUNICATIONS EQUIPMENT

1 Voice over IP (VoIP) Infrastructure

1.1 Cisco Unified Communications Manager Cluster

- Deployment: Enterprise-wide implementation
- Total Licensing Value: \$127,500
- Support Contract: Cisco Unified Communications Support through March 2025

2 Telephony Hardware

2.1 Cisco IP Phone Inventory

- Model: Cisco 8851 IP Phones
- Total Quantity: 92

- Deployment Date: Phased rollout 2022-2023
- Total Hardware Value: \$83,600

5. CONNECTIVITY INFRASTRUCTURE

1 Internet Connectivity

1.1 Primary Internet Connection

- Provider: Level 3 Communications
- Bandwidth: 1 Gbps Dedicated Fiber
- Monthly Cost: \$4,750
- Contract Term: 36-month agreement expiring December 2025

2 Wide Area Network (WAN) Connectivity

2.1 MPLS Network Configuration

- Provider: AT&T Global Network Services
- Total Monthly Connectivity Cost: \$6,200
- Contract Expiration: September 2024

6. LEGAL DISCLAIMERS

1 This Asset List is provided "as-is" and represents the Company's good faith documentation of its network and telecommunications infrastructure as of the date specified.

2 All values are estimated replacement costs and do not constitute a formal appraisal or guarantee of market value.

7. CERTIFICATION

1 I, Michael Chen, Chief Technology Officer of Nexus Intelligent Systems, Inc., certify that the information contained herein is true and accurate to the best of my knowledge.
